Rule 17f-7, by reference to Rule 17f-4, requires that, for a CSD to be eligible to hold securities of U.S. registered investment companies (such depositories hereinafter referred to as "Eligible Securities Depositories"), the CSD must be a "system for the central handling of securities where all securities of any particular class or series of any issuer deposited within the system are treated as fungible and may be transferred or pledged by bookkeeping entry without physical delivery of the securities."

Are all securities of a particular class or series of any issuer that are deposited in your institution treated as fungible, and can they be transferred or pledged by bookkeeping entry without physical delivery of the securities?

 Yes No

AGC: 1a

Please explain

All securities issued in Republic of North Macedonia are dematerialized, and all of them are classified and registered in the CSD under an ISIN number. This allows for the securities to be treated as fungible. One security that is issued by one issuer and that bears the same rights is always issued by unique ISIN. Thus the securities that are issued with the same conditions by one issuer are regarded interchangeable and are not deferring from the others in the series.

AGC: 2

Rule 17f-7 also requires that an Eligible Securities CSD "acts as or operates a system for the central handling of securities or equivalent book-entries in the country where it is incorporated," or "acts as or operates a transnational system for the central handling of securities or equivalent book-entries." Does your institution:

- Act as or operate a system for the central handling of securities or equivalent book-entries in the country where it is incorporated?
- Act as or operate a transnational system for the central handling of securities or equivalent book-entries?
- Act in another capacity with respect to the handling of securities or equivalent book-entries?
- Not applicable
- OTHER:

AGC: 2a.

Please explain:

AGC: 2b.

Please specify the types of securities for which you act as or operate a system for the central handling of securities or equivalent book-entries:

Under the Law on Securities of the Republic of North Macedonia, all type of Securities except the Treasury Bills issued by National Bank of Republic of North Macedonia are registered by the CSD.

What are the roles and responsibilities of the CSD's board of directors (or equivalent), and are they clearly specified? Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the CSD. What are the qualifications to become a board member?

The Board of Directors is comprised of 8 members. The members are representatives of the Depository's shareholders and part of the members are independent. They have equal responsibilities regarding the functioning of the company. According to the Law on Securities, at least one third of the members of the Managing Board are individuals that are not employees of the Depository, or in connection with some of the shareholders, members of the Depository or other legal entities that are participants of the Macedonian Securities Market (independent members of the Board). The members of the Board are elected by the shareholders. The independent members should be known experts in the area of economics, financial or business law. The list of Board Members including their industry experience is available on the following link: http://cdhv.mk/board_of_directors.aspx

AGC: 7e

What are the election procedures?

The Board members are elected by the shareholders of the company (a minimum of 51% votes of the represented shares at the general meeting are participating in the election of the Board members. A minimum of 51% of the total number of issued shares must be represented at the shareholders meeting). The President of the Board of Directors and the executive member are elected by its members

AGC: 7f

What is the maximum length of time a board member can serve?

According to the Statute of the CSD, not more than 4 years, with a possibility to be re-elected

AGC: 7g

How are the voting powers distributed amongst the board members (i.e. does each board member have one vote or do certain members have additional voting power)?

The Board of Directors decides with a majority of votes, regarding issues concerning the activities of the Depository. Each member has a right to one vote. The vote of the President of the Board will prevail in cases where the votes are equally divided. The Board has broad authorizations in the management of the Company, with exception of the authorizations that are given to the General Assembly by the Law on Trading Companies

AGC: 7h

What are the procedures established to review the performance of the board as a whole and the performance of the individual board members? Who is responsible for regulating the board members?

The Securities and Exchange Commission of the Republic of North Macedonia and the shareholders of the CSD.

AGC: 8

Rule 17f-7 requires that an Eligible Securities Depository regulated by a foreign financial regulatory authority as defined under section 2(a)(50) of the Act, with section 2(a)(50) establishing that a 'foreign financial regulatory authority' means any (A) foreign securities authority, (B) other governmental body or foreign equivalent of a self-regulatory organization empowered by a foreign government to administer or enforce its laws relating to the regulation of fiduciaries, trusts, commercial lending, insurance, trading in contracts of sale of a commodity for future delivery, or other instruments traded on or subject to the rules of a contract market, board of trade or foreign equivalent, or other financial activities, or (C) membership organization a function of which is to regulate the participation of its members in activities listed above." Summary narrative for PFMI Principle 5. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

The CSD manages collateral according to the steps listed, below: Pledge and Pledgor execute a legal agreement. The Pledge Agreement is registered at the Pledge Register. The Pledge Register validates legal agreement's details with the CSD. CSD verifies legal agreement's details. Pledge Agreement is recorded and effectuated by the Pledge Register. The CSD blocks the shares in the CSD system CSD notifies the Pledge Register of shares blocked on the basis of the Pledge agreement. In placing the pledge the CSD systems will insure that shares pledged as collateral are frozen for the term specified in the legal agreement and as such these shares can not be traded. What procedures are in place for the processing of corporate action entitlements?

- Credited to the securities account on the day indicated below regardless of whether actually collected by the CSD on the scheduled date.
- Not applicable
- Corporate action entitlements are handled by an entity separate from the CSD.
- Credited to the securities account upon actual receipt by the CSD.
- OTHER: The Payment system (MIPS) of National Bank will be used in cases where the CSD is responsible for distributing money on behalf of Issuers. In the event of the CSD distributing money, the Issuer must place money in a separate CSD account at the NBRM . From the CSD account at the NBRM, the CSD will then send individual payment orders for each holder entitled to payment, to the banks of the holders. After banks have received the money, the banks are responsible for transferrin g the money to the individual holders accounts. The CSD system automatically sends Tran sfer Orders to the NBRM wh en the payments are due (P ayment Date). If there are insufficient funds in the CSD account, the entire payment transfer fails. If the paym ent transfer fails, the transfer has to be re-sent.

Securities are registered on accounts held with the Depository. For the purposes of registration of securities the Depository shall open accounts to the issuers and holders of securities.

In any new securities issue the issuer submits to the Depository an approval by the Securities and exchange Commission. If the issue amount is lower than EUR 25 000, the issuer submits to the Depository only a decision by the competent body of the issuer on securities issue.

Once the issue is registered with the Central Registry, the issuer shall submit to the Depository an extract from the registration of the issue in the Trade registry.

The Depository, after it has received the documentation, shall assign to the issuer an ISIN number for that issue. If the issuer does not hold a securities account, the Depository shall open a new securities account to him. If those are securities of the second or subsequent series conferring the same rights as the security already issued by the same issuer, the Depository shall not assign a new ISIN number by it shall attach the newly issued number of securities to the existing ISIN number.

After it has been established that the order is duly and fully filled in, entry is made in the Depository on the basis of the data stated in the order. Entries of orders in the Depository are made by an account operator. Entries of data on the accounts in the Depository are made in accordance with the Rules, instructions and other acts issued by the Depository.

Participant Default Protections Resulting from a Participant Failure. If a participant defaults, how is the loss covered? (Choose all that apply?)

- CSD insurance covers the loss
- The CSD guaranty fund covers the loss
- Loss is shared among participants
- Not applicable
- OTHER:

AGC: 76a

Please explain the process:

AGC: 76b

Please explain the process of how the loss is shared:

- Equally, among participants
- Pro-rata based on participant's volume
- Limited to participants with transactions with failing counterparty

AGC: 76d

Please explain:

Function of a guarantee fund is to mitigate counterparty and settlement risk amongst Participants. CSD is managing the guarantee fund but assets are owned by participants. Each participant, according to the Article 3. Rules of guarantee fund, is required to contribute 3.500€ to the fund as a flat rate contribution.

With usage of guarantee fund as a risk measure CSD is implicitly guaranteeing settlement in case of cash defaults up to the amount available in the guarantee fund. Participants are fined (around 250€) for cash default and CSD is blocking securities by transfer to the special securities account.

If the cash default is not covered until 14.00 CSD will suspend participant for at least 3 days (maximum 30 days). If the cash default is not covered in the 30 days CSD will sell blocked securities and transfer cash to the guarantee fund.

AGC: 77

During the past three years, has there been a situation where a participant defaulted which resulted in a significant loss?

- Yes
- No
- Not applicable

AGC: 77a

How was the situation resolved? Or if you answered "Other," then please explain:

AGC: 78

Does the CSD have a guaranty fund independent of stock exchange or other market guarantees?

- Yes
- No
- Not applicable

AGC: 78a.

If yes, please respond to the following questions: What is the size of the fund?

57.425 EUR

AGC: 78b.

How is the size of the fund determined?

- By participant volume
- By asset value
- A fixed amount

AGC: 78d.

How is the fund financed?

- Contributions from owner
- Contributions from participants
- Funding from retained earnings

AGC: 78e.

If so, what is the amount or percentage per owner?

AGC: 78f.

If so, what is the amount or percentage per participant?

3.500,00 Euro

AGC: 78h.

Who is covered by the fund?

- Direct CSD participants only
- The beneficial owner also
- OTHER: In case of default, CSD transfers funds from guaranty fund to the default participant's account in Central Bank. It is obligation of participant to further transfer funds to the beneficial owner(s).

AGC: 78j.

When is the guaranty fund used?

- When a broker defaults
- When a direct participant defaults
- OTHER: CSD Rules require each market participant to reserve shares prior to entering a Sell Order for those shares on the MSE. In this manner all Sell Orders executed on the MSE have the shares involved reserved at the CSD pending settlement. Implementation of the Share Reservation Rule has dramatically reduced the possibility of Sell-Side Security Fails. The Share Reservation Rule has resulted in the CSD having only one failed Settlement in over 9 years. On the other hand, for the cases of default on a cash leg of transactions, Guarantee Fund is established.

AGC: 79

Does the CSD have forms of oversight management for assessing and monitoring of the following?

- Collateral requirements for participants
- Blocking of securities movement before receipt of payment
- Other loss or default protections the CSD maintains
- Settlement controls that minimize or eliminate the risk of default by a participant
- Participant financial strength
- Blocking payment until securities are moved
- Not applicable
- Debit caps for participants
- Participant volumes
- Participant eligibility requirements
- OTHER:

AGC: 79a

Please explain other loss or default protections:

AGC: 79a

Please explain other loss or default protections:

Settlement of transactions executed on the Exchange shall be made in the Depository on a gross basis, or for all participants in the transaction in securities transfer of securities is made on the basis of each individual transaction executed on a given trading date, and the transfer of money shall be made on a net basis by calculating the obligations of the participants in the settlement from all sale and buy transactions at a level of participant (B1S model II). All participants in the settlement who have executed transactions in securities on a given trading day must provide on the settlement date the required quantity of securities (if they acted as sellers) and the required amount of funds (if they acted as buyers) for each individual transaction. A member which is the buyer of securities in a given transaction must secure the required amount of funds on its settlement account held with the National Bank by the settlement date. When executing a transaction in securities in which the same member of the Depository acts as both the buyer and the seller, that member shall by not later than the settlement date deposit the required amount of funds for settlement of the transaction on a separate account on the Depository held with the National Bank of the Republic of Macedonia. Amounts previously deposited shall be deposited back on the account of the member by the Depository after the closure of the cycle of settlement on that day. If the required monetary amount is not deposited on a separate account of the Depository, the settlement procedure provided in the Rules and the method of use of the Guarantee fund will be applied.

processes are monitored continuously, and penetration testing is performed from time to time. Disaster recovery testing is performed annually

AGC: 109
What technological controls and protections are in place for your systems and networks?

a distributed architecture is implemented to avoid the single point of failure. CSD system consists of several logical and physical divided parts - domains. There are domains for database servers, application servers, workstations. Each domain has its own domain controller, which takes care of users, rights and privileges on that system. Between them there is no domain relation and the firewall is put on each end. The connection between different domains (also different networks) is established through third entity workgroup. This is also different network and it represent the DMZ zone of the system.
